Lake Drive Walkway Construction Approved

Supervisor Paul Biane announced today the San Bernardino County Board of Supervisors approved a construction contract with a local company for completion of the Lake Drive Walkway project in the Crestline.

County Supervisor Biane said, "Our action will bring an important improvement to the Crestline business district as part of our community revitalization efforts". In addition to the walkway, a deteriorated drainage facility under Lake Drive will also be rehabilitated.

The construction of the 5-foot colored concrete walkway along both sides of Lake Drive will be done by the William Kanayan Company of Rim Forest. The project will also include a new drainage pipes that will run under Lake Drive and route water flows to eliminate the flooding potential around various buildings.

"With the coming winter rains, the addition of walkways and the other structural improvements will reduce the possibility of flood damage and increase the safety of Crestline residents that use Lake Drive regularly," said Supervisor Biane.

Construction on these projects is scheduled to begin in late September. Every effort will be made to expedite the construction and minimize inconvenience to Crestline residents and businesses.
